

INJECTION MOULDS

FUTURA STAMPI

Established in 1980, with a long experience, nowadays Futura Stampi S.r.l. is a leading company specialising in the design and manufacture of injection moulds for technopolymers.

The core business is the production of injection moulds focused on plastic containers of any kind, from bottle crates, pallet-boxes, automotive parts, light fittings to medical and cosmetic thin wall products.

FUTURA STAMPI's manufacturing capabilities extend from the production of small to large complex plastic components.
